PROJECTS

4-the-record | https://github.com/dmevola/4-the-record | https://record-1400.herokuapp.com/

- This is a full stack web application written in an Express and Sequelize framework, deployed to Heroku. It is a site where people can register and share their records, view the other records, and leave comments on other people's records.

What's for dinner | https://github.com/stahljohnmark/whatsfordinner
https://stahljohnmark.github.io/whatsfordinner/

This is a food and drink resepi based on ingredients.

- Created with JavaScript, JQuery, HTML, CSS, Bulma

EXPERIENCE

TARGET STORE   **2018-2022**

- Interacted with approximately 30 customers daily, building strong customer base through providing personalized product guidance, resolving issues, following up on purchases, and opening new accounts
- Drove sales through upselling products based on customer's past purchases and preferences.
- Performed daily department tasks including stocking, creating merchandise displays, remerchandising, pricing markdowns, transferring merchandise, inventory control, and processing transactions.
- Provided comprehensive follow-up, often going between customer and vendors to resolve issues, and tailoring resolutions to meet customer needs
